All trains also carried trucks.

1.   Comment. The troop trains between Lieberose and Frankfurt/Oder belong to the return movement of components of the 7th Gds Mecz Div stationed in Frankfurt/Oder from the Lieberose troop training grounds to their home station. The beginning of the return movement was reported   on 9 October 1952, while several troop trains from Lieberose to Frankfurt/Oder were observed on the following days.    
  The troop trains from Frankfurt/Oder to Beeskow on 5 October and from Fuerstenwalde to Frankfurt/Oder on 10 October 1952 were possibly connected with the beginning and the completion of a field exercise held by components of the 7th Gds Mecz Div in the area south of Fuerstenwalde between 8 and 10 October 1952.   was previously reported only from the Templin area and Eberswalde; there are no indications that the series belongs to the 7th Gds Mecz Div.
2.   Comment. The troop train from Fuerstenwalde to Cuen was previously reported   The train probably carried a component of the (3d AAA Div (US) which was possibly employed for air defense of the bridge across the Neisse River near Cuen.

[ ] the number of troop trains belonging to the return movement to 131. [ ]

[ ] the troop train [ ] went to Naumburg.

However, Saalfeld is more likely to have been the receiving station, as the troop train probably carried elements of the 316th RL Regt (UK) of the XXVIII Itz Rifle

Corps from Saalfeld. [ ] the troop train [ ]

[ ] had gone to Langensalza.
